IDT America Inside Wire Maintenance

Terms and Conditions

As an IDT America, Corp (“IDT”) customer, you are responsible for maintaining the part of your telephone line between your home and the network interface point. To help you maintain the wiring and jacks inside your residence, IDT offers an optional Inside Wire Maintenance plan. The following terms and conditions will govern the provision of the plan.

Description of the Plan

Inside Wire Maintenance. In accordance with IDT’s standard procedures, IDT will perform such diagnostics and repairs to the Customer’s standard inside telephone wire and jack(s) associated with each IDT dial tone line covered under the Plan (subject to the Plan Exclusions listed below) that become necessary and are reported to IDT while you are enrolled under the Plan. Trouble isolation can often be accomplished through office testing facilities. We reserve the right to dispatch a service technician at our discretion to identify the service problem. If the problem is found to be in your inside wire, or jack(s), you will not be billed a service charge. . If the problem is in the line between the network interface on through the jack(s), IDT will repair basic inside telephone wire and modular jacks. If the problem is caused by a defect in the cord from the jack to the telephone or other equipment (e.g., fax machine, answering machine, modem, etc.) that is attached to your line, IDT will advise you of the source of the problem. IDT does not repair such defective phone cords, phones, or equipment. You agree to pay monthly charges and other applicable charges, including charges for missed appointments, for this Plan. There is no additional charge for repairing problems in the wiring or jacks inside your home. Because this Plan is optional, non-payment of charges for this Plan will not cause termination or denial of your regular telephone service.

To request maintenance service under the Plan, the Customer should call the IDT repair service telephone number, or such other number as IDT may designate.

Charges

The charges for the Plan are subject to change by IDT from time to time, as more fully described in the next paragraph. All charges, plus all applicable taxes, shall be due and payable by the due date stated on IDT’s bill. Payments received after that date may be subject to a late payment charge.
